

1. Sign into the chromebook using your google account (Make sure you know your full account for when you're at home)

EX: ____@gapps.chippewa.k12.oh.us

2. Log in or Sign up if never used before. Always sign into google and continue with google
3. Below is how you assign a coach.
4. Whenever I assign skills that need practiced, the word "assignments" should appear between the "Badges" and "Progress" tabs, that is where you would go.

I will give at least a week's notice, if not two, from the moment I assign skills before they are due. MOST of the time students will have a day in class to work on the assignments.

These points will act like a homework grade and each skill is worth 4 points each. If each one of the skills is done by the time it is due, you get full credit.

To show that a skill is practiced, students need to receive at least a 70% or higher. You can practice each skill as often as you like. Often times I screenshot these questions and put them on Assessments.
